

Due: Tuesday, Sept 8th

Name: _____

Period: _____

Chapter 2, Population and Health, Key Issue 1 - Guided Notes

Key Issue 1 - Where Is the World's Population Distributed?

Part A - Population Concentrations

Part B - Population Density

A. Population Concentrations -

I. Clusters - (what is a cluster)

What are characteristics of each of these clusters?

East Asia

South Asia

Europe

Southeast Asia

Other

II. Sparsely Populated Regions - (Describe them in general?)

Dry Lands

Wet Lands

Cold Lands

High Lands

B. Population Density -

I. Arithmetic Density - (what is it, where is it highest)

II. Physiological Density - (what is it, where is it highest)

III. Agricultural Density - (what is it, where is it highest)

Chapter 2, Population and Health, Key Issue 2 – Guided Notes

Key Issue 2 – Why is Global Population Increasing?

Part A – Components of Population growth

Part B - Population Structure

A. Components of Population Growth - Explain the following

•CBR

•CDR

•NIR

I. Natural Increase – (Describe it in general?)

Define Doubling Time

Write one bullet for each of the last three paragraphs of this section

1

2

3

II. Fertility – (Describe TFR, what could a high or low TFR mean?)

III. Morality- (Describe CDR, why is there little difference between CDR in developed and developing countries?)

B. Population Structure

I. Population Pyramids – (Describe it in general)

II. Dependency Ratio – (Describe dependency ratio)

III. Sex Ratio – (Describe it)
